

The Rules: How to Play

When all cards are played, the dealer sorts through the pile to score, all the zombie cards Player 1 got to first are handed to player 1, and all the cards player 2 got to first are handed to player 2, players will have a card taken from them for any wrongfully laid cards, and the scores are calculated.

Additional decks should be played one after another in the same round, one deck at a time, then calculated together after all decks have been played.

Boss Fights Expansion

Each Enemy card in the Boss Fights Expansion Deck has multiple symbols on each card, players must play a Player card for each symbol at once to beat each card.

Trick Deck Expansion

With the Trick Deck the colours don't match the symbols making it more difficult to react as quickly, Players must match the symbols & not the colours.

**ZOMBIE
PILE-UP**
